#1 IN SINGAPORE
QS Asia University Rankings 2026

#12 IN THE WORLD
QS World University Rankings 2027

GRADUATE STUDIES

INNOVATE. LEAD. TRANSFORM.

THE MASTER IN HEALTHCARE MANAGEMENT EDGE

Healthcare today demands leaders who can see beyond individual functions and understand how organisations, policy, people, technology and care delivery connect across the wider healthcare system.

1 INTEGRATED DUAL-CORE CURRICULUM

MHEAL combines core business disciplines with structured study of healthcare systems.

Rather than treating healthcare as merely a context for applying management knowledge, the curriculum integrates both areas of study.

2 SYSTEM-WIDE PERSPECTIVE

Build a holistic understanding of the healthcare ecosystem by connecting policy, system design, institutional strategy and service delivery.

Learn to look beyond individual functions and organisations to see how different parts of healthcare interact.

3 POLICY-TO-PRACTICE LINKAGE

Learn to interpret national healthcare agendas and examine how they translate into organisational strategies, processes and outcomes.

Connect where healthcare is heading with what organisations need to do in response.

WHO IS MHEAL FOR?

MHEAL is designed for aspiring and current healthcare administrators and leaders seeking to build their capabilities and advance their careers in healthcare administration across Singapore and Asia.

The programme is suited for:

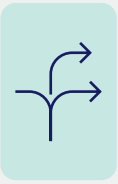

ADVANCE | ALREADY IN HEALTHCARE

- For healthcare administrators and professionals looking to broaden their management expertise, strengthen their system-wide understanding and move beyond their current function.

TRANSITION | FROM CLINICAL EXPERTISE TO MANAGEMENT

- For nurses, allied health professionals and medical personnel looking to complement their domain expertise with management, leadership and healthcare systems knowledge.

SWITCH | BUILD A CAREER IN HEALTHCARE

- For experienced professionals from other industries looking to understand healthcare systems and bring their existing expertise into the healthcare sector.

CAREER PATHWAYS

MHEAL aims to strengthen participants' capabilities and broaden their career prospects across the healthcare sector.

For current healthcare professionals, the programme supports the development of management and leadership skills for progression into broader healthcare administrative roles. For career switchers entering the sector, it builds an understanding of healthcare environments and systems to help prepare them for healthcare-related roles.

POTENTIAL CAREER DIRECTIONS

01 Healthcare Operations & Administration	02 Healthcare Policy & Programme Management	03 Quality, Patient Safety & Governance	04 Healthcare Finance & Resource Management	05 Healthcare Strategy & Planning

ABOUT NANYANG BUSINESS SCHOOL

INNOVATE. LEAD. TRANSFORM.

A premier business school within a leading technological university, Nanyang Business School (NBS) is the nexus of world-class innovation, research, and business education.

At NBS, we innovate through interdisciplinarity, lead with cultural dexterity, and transform for sustainability.

INNOVATE THROUGH INTERDISCIPLINARITY

Situated within the vibrant tech and innovation ecosystem of Nanyang Technological University, we are a pioneer in harnessing technology across various business domains. Our collaborative programmes emphasise interdisciplinary learning, empowering learners to address challenges such as urban sustainability, supply chain resilience, healthcare, and ageing, while preparing them for today's dynamic landscape.

LEAD WITH CULTURAL DEXTERITY

Strategically based in Singapore, NBS blends Asian and Western influences across its programmes. Our world-class faculty integrates Asian heritage with business insights, emphasising cultural intelligence, Asian consumer psychology, and ASEAN studies. We shape globally minded leaders who are adept at making a lasting impact across Asia and beyond.

TRANSFORM FOR SUSTAINABILITY

Bringing together NTU Singapore's strengths in science and technology with NBS's strategic business leadership expertise, our programmes nurture purposeful leaders who champion success and ethical behaviour. Guided to transcend boundaries, these leaders drive meaningful change, create value beyond business outcomes, and champion a journey towards sustainability in business, society, and the environment.
